REGULATIONS TO GOVERN THE ADMISSION OF GREYHOUNDS INTO THE AUSTRALIAN AND NEW ZEALAND GREYHOUND STUDBOOK

(as amended on 1st January 2012)

1 TITLE

These regulations may be referred to as the “Regulations to Govern the Admission of Greyhounds into the Australian and New Zealand Greyhound Studbook”.

2 DEFINITIONS

In these Regulations unless the context or subject matter otherwise indicates or requires the following mean and expressions cognate with expressions shall be construed accordingly.

“approved facility” means premises approved by the Controlling Body at which the collection, storage, freezing and/or at which insemination of such semen may be undertaken.

“artificial insemination” means insemination by any method other than natural.

“artificial insemination technician” means a veterinary surgeon or a registered person approved by a Controlling Body to carry out any function in connection with an approved facility.

“breeding unit of semen” means a unit of semen (phial or straw) constructed to contain not less than 100 million forwardly motile normal live sperm, post thaw at the time of freezing. A frozen semen breeding unit of semen may consist of all of the sperm from an ejaculate or from a split of the same ejaculate.

“Company” means Greyhounds Australasia Limited.

“Controlling Body” means the approved controlling authority or the legislated body having control of greyhound racing, or an aspect thereof, in Australia or New Zealand.

“DNA” means deoxyribonucleic acid.

“DNA fingerprint analysis” means the chemical process used for the purpose of identifying and ascertaining the biographical heritage or pedigree of a greyhound by resolving the partial digest of a DNA.

“Keeper of the Studbook” means the person appointed by the Company who is responsible for:
(a) compiling all information relative to the whelping of greyhound litters; (b) naming greyhounds admitted into the Studbook; and (c) publishing, revising and updating the Studbook.

“quarter” means the periods January – March inclusive, April – June inclusive, July – September inclusive and October – December inclusive.

“Regulations” means the Regulations to Govern the Admission of Greyhounds into the Australian and New Zealand Greyhound Studbook.

“service” means a natural service comprising a physical mating, and a mating by artificial insemination.

“studbook” means the Australian and New Zealand Greyhound Studbook.

“studmaster” means a person registered by a Controlling Body who has the care, control, or custody of a sire.

3 CONSTRUCTION

Words or expressions contained in these Regulations shall be interpreted in accordance with the Interpretation of Legislation Act 1984 as amended from time to time.

4 APPLICATION OF REGULATIONS

These Regulations came into force on the first day of January 1995 and have been amended on the first day of January 2013.

5 ADMISSION TO STUDBOOK

- (1) Subject to sub-regulations (2) & (3) a greyhound registered by, and a litter recorded with, a Controlling Body in accordance with its rules shall be eligible to be included in the Australian and New Zealand, Studbook.
- (2) A litter shall not be recorded in the Studbook unless the sire and the dam of the litter are currently recorded in the Studbook.
- (3) A greyhound shall not be recorded in the Studbook unless –
 - (a) the sire and the dam of the greyhound are currently recorded in the Studbook; and
 - (b) the litter, of which the greyhound was a member, is or has been previously, recorded in the studbook
- (4) Sub-regulations (2) & (3) shall not apply to a greyhound or litter already recorded in the Studbook or a Studbook of a member of the International Alliance of Greyhound Registries.
- (5) Where application for entry into the Studbook is made for a greyhound or litter, if the Rules of the relevant Controlling Body have not been complied with, the greyhound or litter shall not be entered into the Studbook unless approval is granted by the company.
- (6) A sire or bitch domiciled or a litter whelped in Australia or New Zealand, shall not be entered into the Studbook unless a DNA fingerprint analysis record is made available to the Company for acceptable confirmation by a laboratory designated by the Company.
- (7) In circumstances where the sire and/or dam is
 - (a) deceased; or
 - (b) unable to be located
prior to DNA fingerprint analysis confirming parentage being undertaken, a DNA fingerprint analysis record of the grandparents shall be made available to the Company for acceptable confirmation by a laboratory designated by the Company.

6 DELETION IN THE STUDBOOK

- (1) If in the opinion of the Company or a Controlling Body doubt exists of the parentage of a greyhound entered in the Studbook, the entry shall be deleted.
- (2) A deleted entry of a greyhound in the Studbook may be reinstated if, in the opinion of the Company, the circumstances surrounding the deletion no longer exist.

7 BREEDING REGULATIONS

7.1 DNA fingerprint analysis

- (1) Prior to a whelping being registered, at the expense of the owner of the bitch or other authorised person, the person shall lodge with the Company a DNA fingerprint analysis carried out by a laboratory approved by the Company on a sample taken from the bitch by a veterinary surgeon or other approved person and acceptable to the Company pursuant to any prescribed criterion.
- (2) The analysis of a DNA fingerprint provided pursuant to the Rules of a Controlling Body shall be carried out by a laboratory approved by the Company.
- (3) The Controlling Body is exclusively entitled to the results, and retains the Intellectual Property of all DNA fingerprint analyses performed pursuant to its Rules.
- (4) The Controlling Body may, in its absolute discretion, disclose to any person or publish the result of any DNA fingerprint analysis conducted pursuant to its Rules and shall not be liable to any person in law or otherwise for the disclosure or publication of any result.
- (5) Where prescribed in its Rules, or at any time, the Controlling Body may direct, that a DNA fingerprint analysis be performed on a greyhound which is registered, or for which registration is sought with the Controlling Body for the purpose of ascertaining the parentage of the greyhound or otherwise.
- (6) Within seven (7) days of direction by the Controlling Body pursuant to subregulation (5) being communicated to the owner, the owner shall lodge with the Controlling Body the prescribed DNA fingerprint analysis fee.
- (7) The owner of a greyhound may request that a DNA fingerprint analysis is performed on the greyhound by submitting a completed prescribed DNA application form to the Controlling Body together with the prescribed fee. On receipt of the result of analysis pursuant to its Rules, the Controlling Body shall forward the result to the owner.
- (8) Unless otherwise directed by the Controlling Body, the analytical laboratory shall disclose or forward only to the Controlling Body the result of any analysis.
- (9) The type of biological sample to be taken for DNA fingerprint analysis shall be as determined by the Controlling Body.
- (10) On the Controlling Body pursuant to regulation 7.1 (5) communicating to the owner, or by the owner lodging a DNA application form with the Controlling Body, the owner of the greyhound shall-
 - (a) arrange for the collection of samples from the greyhound by a veterinary surgeon approved by the Controlling Body for this purpose;
 - (b) ensure that the samples are contained/packaged in the prescribed manner and clearly labeled to show-
 - (i) the breeding, ear brand, microchip number, colour and sex of the greyhound and name if applicable;
 - (ii) the date and time of collection of the samples; and
 - (iii) the name of the veterinary surgeon who collected the samples; and
 - (c) ensure that the veterinary surgeon collecting the samples forwards the samples to an approved laboratory within a reasonable period of time of the samples being collected;

7.2 Registration of sire

- (1) A greyhound shall not be used as a sire unless registered as a sire.
- (2) All documents and other items in relation to the breeding of a greyhound shall be open for inspection by the Controlling Body in the jurisdiction in which the sire is domiciled.
- (3) Application for registration as a sire may be made by the owner or authorised person by lodging with the Controlling Body-
 - (a) a completed prescribed form together with the prescribed fee; and
 - (b) at the expense of the applicant a DNA fingerprint analysis carried out by an analytical laboratory approved by the Company on a sample taken by a veterinary surgeon or other approved person; and
 - (c) a fertility test carried no less than 30 days prior to application for registration acceptable to the Controlling Body pursuant to any of its prescribed criterion.
- (4) The granting of registration of a sire shall be conditional on the greyhound being in the control of the applicant or other approved person.
- (5) Based on the acceptance of the sire's registration a unique identification number will be issued.

7.3 Identity confirmation

- (1) Prior to any service or artificial insemination, the appropriate registered person shall by reference to its certificate of registration or greyhound identification card positively identify the bitch presented to be served or inseminated. Should there be any doubt over the identity of the bitch, the person carrying out the identity examination shall, forthwith, inform the Controlling Body of the doubt and ensure that the bitch is not served or inseminated until the doubt has been resolved.
- (2) A person presenting a bitch to be served or inseminated may by reference to-
 - (a) the certificate of registration or greyhound identification card for the sire positively identify the sire, or
 - (b) by the certification of the breeding unit of semen positively identify the breeding unit of semen.

Should there be any doubt over the identity of the sire or the breeding unit, the person carrying out the identity examination shall, forthwith, inform the Controlling Body of the doubt and ensure that the bitch is not served or inseminated until the doubt has been resolved.

7.4 Registration of service

- (1) A service by natural methods or by artificial insemination with fresh semen shall not be permitted other than in the jurisdiction of the Controlling Body by which the sire is domiciled.
- (2) A studmaster or artificial insemination technician shall within 14 days of the first service of a bitch lodge with the Controlling Body a completed registration of service form together with the prescribed fee.

- (3) A breeding unit of semen shall be used to inseminate only one bitch. A phial relative to unused semen from a breeding unit of semen shall be forwarded to the Controlling Body within 14 days of the insemination taking place.

7.5 Restrictions and quotas

- (1) (a) Subject to sub-regulation (2) the number of complete ejaculate produced by a sire, either by way of natural service, or collection for artificial insemination shall not exceed fourteen (14) in any one month, NOR shall the total number of services by natural or artificial insemination with fresh semen and registered breeding units of semen collected for use in Australia or New Zealand exceed fifty four (54) in any one quarter.

(b) The total number of permitted services as set out in this rule shall include natural services, services by means of artificial insemination with fresh semen (where permitted) and each occasion when semen is collected from the greyhound for the purpose of freezing (where permitted).
- (2) Subject to sub-regulation (1) in respect of the 54 in any one quarter, the 54 shall not include-
 - (a) a return service to a bitch (including a replacement breeding unit of semen) which at its previous service to that sire, being the last service of any type to the bitch, failed to conceive to that sire; and
 - (b) a breeding unit of semen collected for storage for future use in Australia or New Zealand and for export to a country other than Australia or New Zealand.
- (3) A Controlling Body may determine if a service or breeding unit of semen should not be included for the purpose of assessing the 54 in any one quarter pursuant to these Rules.
- (4) A Controlling Body may in extraordinary circumstances resolve that a return service to other than the sire from which the bitch failed to conceive be approved and that the service be deemed to be a return service for the replacement sire.

7.6 Multiple sired litters

- (1) Pursuant to Regulation 7.1, it shall, with the prior approval of the Controlling body before any service is conducted, be permissible for a service to involve more than one sire being used on the bitch during the same cycle provided that;
 - (a) the owners of the bitch, or a person authorised pursuant to these Rules, makes written application to the Controlling Body seeking approval to use multiple sires which includes and complies with the following;
 - (i) the names of all intended Registered Sires including acknowledgement from the studmasters of the intent for the bitch to be served by the listed multiple sires.
 - (ii) the name of the bitch which must at the time of application have had a DNA fingerprint analysis completed in accordance with Regulation 7.1. (iii) the anticipated time, place and method of the

services and such other details as the Controlling Body may direct.

- (iii) if not the registered owner of the bitch, a fully completed “Prescribed Form”, which provides the consent of the registered owner that multiple sires will be used for any service.
 - (iv) provide an undertaking that all pups resulting from a whelping by the bitch shall, at the breeder’s sole cost, be subject DNA fingerprint analysis in accordance with the standards and rules that apply prior to registration of the litter.
- (1) The Controlling Body at its absolute discretion may approve, refuse or impose such other conditions as it sees fit on any application made in accordance with these rules.
- (2) A registration of service form must be lodged by the studmaster or AI Technician with the Controlling Body in accordance with Regulation 7.4 in respect to each sire used.
- (3) A notification of result of service must be submitted pursuant to Regulation 7.13 wherein all sires used are listed as the sire.
- (4) Upon the litter being ear branded and/or micro chipped and prior to registration of the litter in accordance with Regulation 7.14, the entire litter must simultaneously be subject to DNA fingerprint analysis and parentage confirmation in accordance with Regulations 7.1 and 7.16.
- (5) Registration of the litter pursuant to Regulation 7.14 shall give effect to the confirmed parentage of each individual pup.

7.7 Authority for breeding purposes

Where the owner of a greyhound consents to another person using the greyhound for breeding purposes, either as a sire or brood bitch, a prescribed authority form shall be lodged with the Controlling Body, or if the Controlling Body determines, a lease shall be registered with the Controlling Body.

7.8 Approved facility

- (1) A person or company may apply for a premises to be registered as an approved facility by-
 - (a) lodging with the Controlling Body a completed prescribed application for registration of approved facility form together with the prescribed fee;
 - (b) satisfying the Controlling Body that the premises is equipped and maintained to a standard acceptable to the Controlling Body; and
 - (c) undertaking to meet any costs incurred by the applicant and the Controlling Body connected with the application whether or not the application is granted.
- (2) Pursuant to the conditions of sub regulation (1) the applicant remains wholly responsible for any matter contained in these Rules.

- (3) Registration of a premises as an approved facility shall not be transferable to any other premises.
- (4) No part of any artificial insemination shall be undertaken on premises not registered as an approved facility.
- (5) The Controlling Body may prescribe conditions in respect of an approved facility.

7.9 Artificial insemination technician

- (1) Artificial insemination shall not be carried out by other than an artificial insemination technician.
- (2) A person or veterinary surgeon may make application for registration as an artificial insemination technician by-
 - (a) Undertaking an artificial insemination training course to the satisfaction of Greyhounds Australasia, inclusive of a certificate stating that the applicant has attained the relevant standard of competency and maintain that standard as required by the Controlling Body.
 - (b) Lodging with Greyhounds Australasia the completed prescribed application form together with the prescribed fee.
- (3) An artificial insemination technician shall comply with any direction relating to the conduct of artificial insemination that the Controlling Body thinks fit.

7.10 Breeding unit collection and registration

- (1) To be eligible to collect a breeding unit of semen from a registered sire, the sire must be registered to do so pursuant to Regulation 7.3.
 - (a) Collection of an ejaculate for the purposes of insemination must;
 - (i) at all times be conducted by an artificial insemination technician; and
 - (ii) unless registered as a breeding unit of semen in accordance with Regulation 7.10, the complete ejaculate shall be used in the service of the bitch.
- (2) Prior to the collection of semen from the registered sire the artificial insemination technician shall-
 - (a) obtain from the Controlling Body a relevant breeding unit identification number; and
 - (b) identify each breeding unit accordingly, including inscribing the name of the sire, on each breeding unit; and
 - (c) register with the Controlling Body the storage location of each breeding unit.
- (3) Within 14 days of the collection of semen from a registered sire an artificial insemination technician shall lodge in the manner prescribed by the Controlling Body the prescribed form notifying the collection, including the assessment and allocation of breeding units of semen from that collection for use in Australia or New Zealand, for storage, or for export to another country.

- (4) Within 14 days of the collection of semen a studmaster or a person approved by the Controlling Body shall lodge, in the manner prescribed by the Controlling Body, the prescribed form and fee notifying the owner of breeding units of semen pursuant to sub-regulation (4).
- (5) Within 5 days of acquiring a registered breeding unit a person shall apply to the Controlling Body for the breeding unit to be transferred into their name in a manner prescribed by the Controlling Body.
- (6) The use of a breeding unit for any purpose pursuant to these Regulations is prohibited unless-
 - (a) the artificial insemination technician is approved by the Controlling Body in the jurisdiction where the insemination takes place.
 - (b) the breeding unit was collected pursuant to the Rules of the Controlling Body in the jurisdiction where the sire is domiciled.
 - (c) the breeding unit of semen was stored at an approved facility pursuant to the Rules of the Controlling Body in the jurisdiction where stored; and identified prior to use.
 - (d) prior to the use of a breeding unit the artificial insemination technician or a person approved by the Controlling Body has confirmed the ownership and/ or transfer of the breeding unit, and the owner of the breeding has lodged, in the manner prescribed by the Controlling Body, the prescribed form and fee notifying the ownership of the breeding unit of semen pursuant to subregulation (6).

7.11 Storage of breeding units

- (1) A breeding unit of semen shall not be stored at other than an approved facility.
- (2) When storing breeding units the practices employed at an approved facility shall ensure the use of a;
 - storage system;
 - an inventory system;
 - an identification system; and
 - storage containers
 approved by the Controlling Body and compliance with any other matter the Controlling Body thinks fit.
- (3) The Controlling Body, pursuant to any prescribed matters and as it thinks fit, may resolve that-
 - (a) a facility for storage be approved without being registered; and
 - (b) a breeding unit recorded as being for storage for use other than in Australia or New Zealand be released for use in Australia or New Zealand.
- (4) An artificial insemination technician may apply to the Controlling Body for a facility to be registered for storage purposes only.

- (5) A change of storage location of a breeding unit shall be notified to the Controlling Body using the prescribed form within 14 days.

7.12 Import and export regulations

- (1) A breeding unit of semen imported from a country other than New Zealand shall have attached to it satisfactory DNA identification prior to entry into Australia or New Zealand.
- (2) (a) Subject to Regulation 7.2 (3) (b) a greyhound registered for artificial insemination purposes by a member country of the International Alliance of Greyhound Registries shall be deemed to be registered in Australia and New Zealand concerning any matter relating to insemination with imported semen.

(b) Prior to the importation of a breeding unit from a country other than New Zealand the importer must lodge, in the manner prescribed by Greyhounds Australasia, the prescribed form notifying the number, assessment and allocation of breeding units from imported semen together with the prescribed fee.
- (2) Any breeding units subject to artificial insemination processes and imported into Australia or New Zealand, shall be subject to export and import requirements and conform to these Regulations.

7.13 Result of service

- (1) The owner of a bitch, or a person authorised pursuant to these Rules, shall notify the result of a service/insemination to the Controlling Body by lodging with the Controlling Body the prescribed form, together with the prescribed fee, within 14 days of whelping or within 14 days of the due whelping date calculated as being 63 days after the date of service.
- (2) Notice of whelping must include an address at which the pups are located and at which the pups may be inspected, subject to the provisions of subregulation (3).
- (3) Except with the prior consent of the Controlling Body, a litter of pups shall not be divided or relocated from the address of whelping until such time as they have been ear branded and microchipped.

7.14 Registration of litter

- (1) Application for registration of a litter whelped in the jurisdiction of a Controlling Body shall be made by lodging with the Controlling Body, within the prescribed time,
 - (a) a completed prescribed application form together with the prescribed fee; and
 - (b) a certificate of vaccination against parvovirus, hepatitis and canine distemper issued by a veterinary surgeon identifying the greyhound by reference to its sex, ear branding and/or microchip identifications, that indicate that such vaccination was performed upon the greyhound at least between the age of ten (10) and sixteen (16) weeks.

- (2) A litter, the subject of an application for registration, must be inspected, marked, ear branded and micro-chipped by a marking, micro-chipping and ear branding official before an application for registration of the litter can be made unless an exemption is granted by the Controlling Body.
- (3) Failure on the part of an applicant to ensure that the condition of premises where a pup is present are satisfactory to the marking official or other authorised person, may result in refusal by the marking official, or that other authorised person, to mark, ear brand and microchip a pup.

7.15 Information release

- (1) The Controlling Body has the unrestricted right to publish the number of services performed by any sire and the number of progeny produced from those services in such manner or medium as they in their sole discretion deem appropriate.
- (2) In exercising their rights pursuant to sub-regulation (1) the Controlling Body may include any information pertaining to the service or resulting progeny, including but not limited to, the type of service, its location, method of insemination, and name of any Stud master or Authorised person or Facility responsible for such service or resulting progeny.

7.16 Doubt of identity or parentage

- (1) Where in the opinion of the Controlling Body it is known or suspected that a pup may have been conceived through(a) service by more than one sire;
 - (a) service with a greyhound not registered as a sire at the time of the mating;
 - (b) an accidental mating; or
 - (c) a service occurring in circumstances beyond the control of the owner or other person who had care or control of the bitch,

subject to satisfactory DNA fingerprinting of the sire, bitch and litter, at the expense of the breeder or other person as directed by the Controlling Body, the Controlling Body may allow the registration of the service and the resultant litter to be registered pursuant to such conditions as it thinks fit.

- (2) In circumstances where the sire and/or dam is
 - (a) deceased; or
 - (b) unable to be located

prior to DNA fingerprint analysis confirming parentage being undertaken, a DNA fingerprint analysis record of the grandparents shall be made available to the Company for acceptable confirmation by a laboratory designated by the Company.

- (3) Where in the opinion of the Controlling Body the parentage of a greyhound cannot be confirmed by DNA fingerprinting, the Controlling Body may register such greyhound “for racing purposes only”.

ASTON BINTANG	defeated	JULANA
VITAL FORCE	**bye**	

FINAL

ASTON BINTANG	defeated	VITAL FORCE

ASTON BINTANG – BK D, Jan 2018 (Barcia Bale x Fantastic Dotty) O: Raymond Borda, T: Paul Abela (Parwan) defeated **VITAL FORCE** – BK D, Dec 2017 (High Earner x Tantrum) O: Peter Presutto, T: Peter Presutto (Devon Meadows).

The Australian Greyhound Association (AGRA)

Selection Criteria for Group Races

Amended March 2010 (applicable 2011-12)

1. Group 1 status shall apply to those races which carry a minimum prizemoney of \$75,000 cash to the winner and have been conducted for at least 6 years or are 'protected status' or 'special status' Group 1 events. Winner's prizemoney must be between 65% and 74% of the total prizemoney paid to the first three placegetters.
2. Group 2 status shall apply to those races which carry prizemoney of between \$40,000 and \$74,999 cash to the winner and have been conducted for at least 6 years or are 'special status' Group 2 events. Winner's prizemoney must be between 65% and 74% of the total prizemoney paid to the first three placegetters.
3. Group 3 status shall apply to those races which carry prizemoney of between \$25,000 and \$39,999 cash to the winner and have been conducted for a minimum of three years or are 'special status' Group 3 events. Winner's prizemoney must be between 65% and 74% of the total prizemoney paid to the first three placegetters.

• All registered greyhounds clubs in Australia are eligible to apply to the Group Race Co-Ordinator of the AGRA to have their respective feature events classified according to these criteria and must do so annually on the special Group Race application form. All Group Race applications will be subject to consideration by the AGRA Group Race Committee. The Group Race Committee will comprise the Chief Executive Officers of all AGRA Member Organisations as applies at any time. Once the Group Race Calendar has been approved by the Group Racing Committee and ratified at an AGRA General Meeting the following conditions apply to any organisation proposing a date change:

- (a) That any changes to Group dates proposed by a club subsequent to the calendar approval by AGRA, be requested via the AGRA Group Race Committee.
- (b) The decision of the AGRA Group Race Committee is to be upheld by the applying club.
- (c) Where a club disregards the decision of the AGRA Group Race Committee or changes a Group race dates without advising the AGRA Group Race Committee, then the future Group status of the said event maybe reviewed.

• Where a 'new' event satisfies the prizemoney criteria for Group 1 or Group 2 and has been conducted for a minimum of three consecutive years, such event shall receive group status one lower in ranking, i.e. Group 2 or Group 3, whichever is applicable. If the new event is conducted for a further three years, it will be elevated to the Group Status that its prizemoney warranted, provided that the said prizemoney was paid throughout the aforementioned 'further three years'.

(For example, a new event which carries prizemoney of \$40,000 to the winner will not receive its initial ranking until Year 4 and in that connection, in Year 4 it will carry Group 3 status irrespective of whether the prizemoney paid to the winner continued to be \$40,000 or was, say, elevated to \$75,000. Following a future consecutive three years of a minimum prizemoney standard equal to the Group levels above, the event will receive its appropriate ranking in Year 7, noting of course that the race must carry the respective minimum prizemoney for at least the three years immediately prior to Year 7).

• Where a new event satisfies the prizemoney criteria for Group 3, it must be conducted for three years, satisfying the prizemoney criteria in each of the three years, before it is able to be considered for Group 3 ranking. Any new event which receives Group 3 criteria in Year 4 of conduct must be conducted for a further two years (ie six years in total) before it is able to be considered for an elevation in Group Status irrespective of prizemoney paid.

• Should any event drop in status for whatever reason, that event shall not be elevated to its former Group status until it has been conducted for a minimum period of three years and carried appropriate prizemoney for the new ranking.

• The Group Race Committee is entitled to use its discretion, by invitation, to enable a Group 2 event to be ranked Group 1 irrespective of the minimum prizemoney requirement or maintain such event as a Group 1 event in circumstances where it has been conducted for a period in excess of 25 years. Where the Group Race is ranked Group 1 under this clause, it will be referred to as a 'protected' Group 1 event. Any event granted 'protected status' will have such status reviewed annually by the group Race Committee.

• The Group Race Committee is empowered to issue a 'caution' to any club conducting a Group Race advising that consideration may be given to downgrading a race should the event not meet the required standard of its classification.

- Should the event attract nominations of mediocre standard;
- Should the event lack nomination numbers;
- The hosting club be struggling to sustain prizemoney levels.

(The caution clause would be applied with a majority vote of the Group Racing Committee determining that the clubs be so advised, and they be given two years until further review. The Committee will then decide whether there has been improvement in the event over the past three years and conducts a vote to determine whether the event should be downgraded, de-listed in the case of Group 3 or retain its status).

• Any event, including existing events, which in the opinion of the Group Race Committee, has its conditions of entry significantly amended and which is therefore considered to be a 'new' event, will be classified as such and be subject to the above criteria for new events.

• The Group Race Committee may consider applications for races to receive Group ranking outside the criteria set down, provided the Group Race Committee is satisfied with the reasons detailed in the special application. Where the Group Race Committee agrees to provide a ranking outside of primary and general criteria, the event will be considered to have received 'special status'. All 'special status' rankings will be reviewed by the Group Race Committee annually.

• Where an event (a) is restricted to greyhounds bred and/or owned and/or trained in a particular State or Territory or (b) is restricted to greyhounds sold through a particular sale or auction or (c) requires the payment of a nomination, commission or entry fee higher than \$100 or (d) requires a nomination fee to be paid prior to eligible greyhounds becoming 12 months of age; such event shall NOT, in any circumstances receive Group status higher than Group 2.

- No event for Maiden greyhounds shall be classified higher than Group 3, irrespective of the prizemoney paid to the winner.
- Levies apply to ALL Group Races which are approved by the Group Race Committee and included in the Group Race Calendar. Invoices are forwarded to each club by the AGRA Executive Officer. The levies payable are as follows: Group 1 \$350. Group 2 \$225. Group 3 \$110.
- The Annual General Meeting of the Australian Greyhound Racing Association will ratify all Group Race applications each year.

2019 AUSTRALIAN GROUP RACE WINNERS

GROUP 1

<u>Race Name</u>	<u>Distance</u>	<u>Host Club</u>	<u>Winner</u>
Silver Chief	525m	MGRA The Meadows	Barooga Brett

BARRACUDA FOZZ BK D, Jun 2017 (Barcia Bale x Immortal Dream) O: Fothergill Racing Synd. T: Brian Fothergill (Numurkah) defeated **BARRAMUNDI FOZZ** BK D, Jun 2017 (Barcia Bale x Immortal Dream) O: Fothergill Racing Synd. T: Brian Fothergill (Numurkah).

STATISTICAL INFORMATION

The next 11 pages of this Stud Book are for the statistical minded enthusiasts and lists (by sire) the following information:-

- (a) Litters recorded in this Stud Book by the listed sires and whelped between 1st July 2018 and 30th June 2019.
- (b) The number of dog pups by the stated sire in the litters recorded.
- (c) The number of bitch pups by the stated sire in the litters recorded.
- (d) Number of dog pups by the stated sire which were named between 1st January 2018 and 31st December 2019.
- (e) Number of bitch pups by the stated sire which were named between 1st January 2018 and 31st December 2019.

The information shown is supplied to Greyhounds Australasia from the various Registering Authorities from around Australia and New Zealand.

It is hoped such statistical information is of interest to readers.

344 Sires Listed	1785	5731	5742	4869	4734

**THE
AUSTRALIAN
AND
NEW ZEALAND
STUD REGISTER**

VOLUME 67

**AUSTRALIAN
AND NEW ZEALAND
GREYHOUND STUD BOOK**

VOL. 67

**ENTRIES RECEIVED BETWEEN
January 01 2019 and December 31 2019**

Sires are printed in capitals. The figure in parenthesis indicates the volume in which a Sire or Dam is registered. In the entries, litters are placed before individuals puppies of such litters as have been named and registered in the ordinary way. Sires, it will be noted, are alphabetically arranged. An index to Dams and their produce will be found at the end of the entries.
